

THE ROBINSON-DAVISON BUILDING

58 Main Street ~ Map #24

Around 1911 Frank Robinson, a grocer on Silver Street, and I.A. Davison joined to build this building at 58 Main Street for their grocery business. When built, it was a fairly progressive example of early 20th century commercial design with its large windows and metal grid-work façade. This building was purchased along with the Soper Block to create one storefront.

At one time, the ground floor was Butler's Department Store. Today the first floor is Saturn Business Systems/Carbon Copy, a printing shop and office supply company.
